LVL Starter Packs
Available in 3 sizes

PACKS TO SUIT EVERY BIOBANK AND SAMPLE STORAGE NEEDS

Single Tube Reader

❯ The Single Tube Reader scans the 2D codes on SAFE® tubes and other cryo tubes

❯ Scans SBS and Cryo Tubes in just 5 seconds

❯ Easy export in MS Excel, XML or text and scanned images can also be saved

❯ Plug & play

SBS Format Rack Reader

❯ The new standard for fast and reliable SBS 2D Tube barcode decoding

❯ Easy export to MS Excel, XML, text, JSON, and jpg

❯ Small footprint enables a simple integration in the automatic pipetting systems

❯ Available with USB Decoding software with lifelong, free upgrades

❯ Plug & play

Single tube picker and de/capper

❯ Easy picking, capping and de-capping of single tubes out of a rack

❯ The caps hold fast to the device and are able to be ejected with a push of the white plunger

Semi Automated Handheld Capper/Decapper

❯ For opening and closing of tubes with screw caps simultaneously

❯ Available in 8 channel

❯ Mobile, battery operated 8 channel for table use

❯ Power-saving mode for longer operating time in wireless mode

SAFE® 2D barcoded racked Tubes

❯ Excellent sealing (IATA certified and CO_2 tested)

❯ Automation friendly or easy manual handling

❯ High performance fibre laser coding for unmatched contrast and readability

❯ 2D bottom code, 1D & HR side code

❯ SAFE® low leachables polypropylene
